

Ability One Contact Information

AbilityOne Vendor Capability & Capacity

- AbilityOne Vendors are a network of nonprofit organizations and agencies that provide services to persons with disabilities, persons with special needs and the disadvantaged. They are generally community based and are operated independently or as part of a national affiliate based organization such as Easter Seals or Goodwill.
- These NonProfit Agencies (NPAs) provide a wide range of services including vocational evaluation training & placement; counseling; residential services; inclusive child care; medical, speech, and physical therapies; elder care; recreation and travel; and much more. Each organization has their own specific offering (or combination of offerings) for human services.
- They also perform services and provide products via contractual arrangements with commercial industry, state and local government and the federal government. Examples of services performed are Secure Mail Operations, Call Centers & Help Desks, Warehouse – Fulfillment and Supply Chain Logistics, Facility Support and Management (including custodial, grounds, O&M, etc.); Fleet Management, etc.
- AbilityOne is working with the VA and the Army Wounded Warrior Transitioning Program at a national and local level and has a long history of working with veterans and performing services for the Department of Defense. The NPAs would be a valuable source for many of the direct services and/or operation of the MOS requirement. A specific value add would be to assist service members and their families that have family members with special needs and to provide services to disabled service members.
