

Company Profile

Ahtna Government Services Corporation (AGSC) is a subsidiary of Ahtna, Inc., an Alaskan Native Corporation. AGSC is certified by the Small Business Administration (SBA), as an 8(a) Native American Small Disadvantaged Business. Our headquarters are located in Anchorage, AK and have nine fully staffed offices in addition to several project locations throughout the nation and world. AGSC has more than 300 technical, administrative, and field staff to offer and provide a broad spectrum of services.

Ahtna, Incorporated as a Native Corporation

Ahtna, Inc. is one of 12 Alaska Native regional corporations established by Congress under terms of the Alaska Native Claims Settlement Act (ANCSA) in 1971. Ahtna Inc. has approximately 1200 shareholders, of which the majority resides in the Copper River region.

AGSC offers several advantages:

- A Native-owned SBA certified 8(a) corporation
- A Prime Contractor with nine offices in – California, Hawaii, Missouri, New Mexico, and Alaska
- A Licensed Prime contractor with adequate bonding financial capability and insurance to protect our customers and ensure project completion
- An experienced contractor with a commitment to safety – our Workman's Comp Experience Modification Rate is approximately 1.0
- Experienced Personnel – Safety Trained Professionals and Davis-Bacon Staff

AGSC Services

We provide a full spectrum of construction, environmental, and professional services for a broad range of customers. Our primary customer has been the U.S. Federal Government, and as such, has attained a thorough knowledge of federal contracting requirements. Our projects have spanned the entire United States and several locations worldwide.
