

My name is Greg Todd and I'd like to tell you a little about my company and the values that make us *your* best choice as a problem solver and key contracting partner. Professional Trades, Inc. (PTI) is a certified Service Disabled Veteran Owned small business. We're located in Colorado but can be **where** you need us as well as **when** you need us around the country.

Mission Statement: PTI centers on the values of successful production and customer satisfaction. PTI makes sure our workers view the industry as a place where skills are developed into a craft. Our unmatched knowledge in the industrial arena allows us to work proficiently in the process line or maintaining, repairing or replacing industrial manufacturing equipment. Clear communication allows PTI to be in tune with the client's needs, solve problems, and assure high standards are always met.

Availability: When you need us, PTI is available 24 hours a day and with our message center, always assures a two-hour response time for current locations. PTI has the capability to man small jobs requiring one or two maintenance mechanics, or large jobs calling for 8-18 men working per shift for multiple shifts.

Versatility: PTI arrives with skilled professionals and all necessary equipment. The undying work ethic and focus on quality is quickly becoming a standard that, through repeat business, demonstrates our success as well as our value to our clients.

Dependability: With over 30 years of hands-on expertise in the field, and with a management team built by the industry and for the industry, PTI's management team is the finest today. PTI Supervisors are competent in the field and have over 25 years of experience in problem solving and budgeting. Assuring safety compliance for OSHA and MSHA, our tools and equipment are modern and ready to go.

Safety : Our skilled staff value safety and know that training is as vital as craftsmanship. Reflection on safety procedures is apparent through superior communication skills, thought out decisions, and vigilant work. The value of safety has inundated the work place creating a unique methodology that is unmatched in today's market.

Pricing: The pricing for an emergency call out or emergency repair is based on a fixed man-hour rate. Non-emergency, scheduled repair or maintenance shutdowns are negotiated based the on scope of work, materials and time.
