## Program Overview

The scope of this effort is to provide, install, and support network systems, equipment, software, and infrastructure as required.

The contractor shall provide total Information Technology (IT) solutions that incorporate pre-sales consulting, commercial items, installation and ongoing IT support.

All orders under this contract shall be priced in accordance with the schedules provided.

Reference FAR 52.216-18 (Section I), Ordering, facsimile or other electronic commerce methods for issuing orders are hereby authorized by the Contracting Officer located in the Department of the Interior, National Business Center, Acquisition Services Division, Southwest Branch, Fort Huachuca, Arizona.

Performance Work Statement for establishing an 8(a) IDIQ Task Order Contract with Castillo Technologies, LLC:

- Efficiently and effectively manage information and information management resources needed to provide responsive support to the Federal Government.
- Ensure that newly developed systems and system enhancements employ state-of-the-art technology, are accurate, comply with requisite Government standards, and provide needed service.
- Improve the ability of existing systems to meet functional and user needs and provide more timely and accurate information to all levels of the client agency or organizations supported.
- Contribute to the implementation of effective policies and procedures.

## Contract Advantages

The benefits of using our existing DOI IDIQ includes simplified acquisition processes, meeting of 8(a) and veteran-owned business goals under the socioeconomic requirements, and use of a preestablished source.

Additionally, since this IDIQ was issued in accordance with the 8(a) process, requirements can be met by direct negotiation.

- Access to high quality, small disadvantaged 8(a) industry partners
- Shortened procurement lead-time
- Transfer of 8(a) credit
- Section 508 Compliance
- Section 803 Compliance
- Open for utilization by all Federal/Government agencies
- Dedicated staff that is customer focused and experts in small business technology contracts.

## Castillo Technologies, LLC

Castillo Technologies, LLC is an IT Professional service provider to the private and public sectors. Service offerings include personalized, focused assessments, comprehensive or incremental system build-outs, product procurement and on-going maintenance and support. Castillo Technologies, LLC works with both large and small organizations to provide quality, standards-based technology solutions designed to increase their productivity and help them reach their goals.
